### 65th Boulé Agenda

p. 22 - p. 23

## From the Office of the 21st Supreme Basileus

Sorors and Fraters,

Spring has sprung; A time to renew and re-energize oneself. It's time to plan for the upcoming Boulé to fellowship and renew old relationships.

We have expanded on our social media. The technology team has worked diligently to monitor our National Facebook, Instagram, Linked-in and Twitter accounts. This has been helpful in expanding our visibility and branding our organization.

The 21st Administration continues to prepare for a successful and enlightening Boulé. Registration is open. A link has been placed on the National website to assist in a user-friendly registration. Go to the National website to review the agenda at [www.chietaphi.com](http://www.chietaphi.com).

### Leadership

The National officers have successfully assisted with educating the membership regarding finances and protocol. Again, being on one accord is the goal.

The Boulé agenda has been completed. We are looking forward to a fun and educational experience during our educational conference. The Boulé dates are July 7-13, 2019 at the Westin York Center in Lombard, IL. This year we have five sponsors lined up for our Boulé. Our business partners have purchased ads for our souvenir journal. We're anticipating 100% of the chapters and Regions to participate in submitting souvenir journal ads.

## Education Provider Unit Updates

We are pleased to announce we are able to provide CNE for pharmacy content. This has been requested from many members. When developing the content for an educational activity, it is recommended that the provider delineate the number of pharmacotherapeutic contact hours on the education planning tools. We can indicate on the certificate the number of contact hours and number of pharmacotherapeutic contact hours received at the same time – not separate certificates because they are earned concurrently; for example a one hour program which carried one nursing contact hour and thirty minutes of which qualifies for pharmacotherapeutic cannot be counted for 1.5; it is one hour of nursing continuing education of which 30 minutes of the content is pharma. The certificate WOULD read: 1.0 contact hours of which 0.5 is considered pharmacotherapeutic content.

## 2019 Education Needs Assessment

Each year the Education Provider Unit seeks feedback from our members on education offerings. Please go to the Chi Eta Phi website and complete the assessment (it will take less than 5 minutes of your time.) You will find the survey, **2019 CEP Learning Needs Assessment** on <https://www.surveymonkey.com/r/7X86KG2>. We appreciate your support and partnership.

Thank you,

## NATIONAL SECRETARY

### Chapter Rosters

Chapter rosters are due June 30, 2019 for fiscal year 2019–2020. It's imperative that your chapter emails the roster. If not received by the deadline the Chapter **will not** be included in the national directory. In addition, members may not receive the Glowing Lamp or JOCEPS, and will not have access to the “Members Only” section of the website. Emailing this form allows for easier transport to the **webmaster**. Submit completed roster in “Excel,” which is a spreadsheet. Word documents or copies of the roster in anything

**other than Excel are not accepted.** Email the **actual** spreadsheet to three entities: National Secretary [CHSNia@outlook.com](mailto:CHSNia@outlook.com), National Headquarters [chietaphi@verizon.net](mailto:chietaphi@verizon.net) and your Regional Director or whomever the Director designates.

### Cyber Security

**Cyber security** is becoming more challenging. Make sure to download recommended updates from your device's manufacturer or operating system provider, especially for important software such as your internet browser. Antivirus software, antispymware software, and firewalls are also important tools to thwart attacks on your device.

- **Update** your system, browser, and important apps regularly, taking advantage of automatic updating when available.
- **Antivirus software** protects your device from viruses that can destroy your data, slow down or crash your device, or allow spammers to send email through your account. You must keep your antivirus software updated.
- **Spyware** is software installed without your knowledge or consent that can monitor your online activities and collect personal information while you're online. Some kinds of spyware, called keyloggers, record everything you key in—including your passwords and financial information. Signs that your device may be infected with spyware include a sudden flurry of ads, being taken to websites you don't want to go to, and generally slowed performance.
- Making use of **complex passwords** and strong methods of authentication can help keep your personal information secure.
- Many social media, email, and financial accounts allow the use of stronger **authentication** methods.
- While **checking email, visiting websites, posting to social media**, or shopping, pay attention to where you click and who you give your information to. Unscrupulous websites or data thieves can attempt to trick you into giving them your personal data.
- **Phishing attacks**—where hackers send seemingly genuine messages to trick you to hand over personal information—are becoming more sophisticated. For instance, you may receive an urgent message stating that your bank account has been locked and requiring you to enter your password and Social Security number to unlock it. Think twice before clicking on links in messages such as this. You can also verify the email address that sent the message to ensure it came from the expected sender.

## MIDDLEWEST REGIONAL DIRECTOR

Greetings Sorors and Fraters,

As a new Regional Director planning my first regional conference, it was important that the Grand Opening Ceremony take advantage of the opportunity to educate the community about Chi Eta Phi Sorority, Incorporated and remind the membership of the responsibility we have to secure the legacy. After gathering the key information and creating a storyboard, I obtained the services of a media director to help me tell the story of Chi Eta Phi Sorority, Inc. This collaboration resulted in a five (5) minute, narrated video clip that highlights the origin, vision, values, mission, and legacy of Chi Eta Phi Sorority, Incorporated. The video clip was shown after the anthems were sung. It was well received. The community was impressed with the rich history of Chi Eta Phi Sorority, Inc and the members were reminded of the reasons they joined. I am now working with the media director to make a few changes in the video so it can be used by the MWR chapters during their information seminars for prospective members and it will also be placed on the MWR website. Supreme Basileus Murphy has also requested a few changes so it can be utilized as a welcome message at the 2019 Boule Grand Opening.
